SUMMARY

As a dedicated Full Stack Developer with extensive experience in web development, I have successfully contributed to high-impact projects, including the Finacle banking software and the Tasheer visa application system. My technical expertise spans across Java, Spring Boot, and modern front-end technologies. I am committed to continuous learning and applying best practices, which enables me to tackle complex challenges and drive successful project outcomes. With a strong problem-solving mindset and a focus on delivering high-quality solutions, I am equipped to make valuable contributions to any development team.

EXPERIENCE

Java Developer

Infosys   📅 12/2021 - 12/2023   📍 MCity, Chengalpattu, Tamil Nadu, India

- Led the end-to-end development of high-impact projects such as the Finacle banking software enhancements, focusing on improving core banking features using Java and Spring Boot.
- Developed an internal Task Tracker application with React.js and Java, allowing the company to streamline employee data management and enhance internal productivity.
- Wrote and optimized Oracle SQL scripts to support data-driven testing.
- Analyze business requirements and translate them into efficient and optimized code.
- Propose alternative methods to enhance Java development processes.

Project name	Description
Finacle	Finacle is a core banking software, and I have worked on enhancing the Savings and Deposits modules, focusing on improving functionality and efficiency.
Task Tracker	Task Tracker is an internal application used to monitor daily task status, enabling managers to track employee assignments, allocate tasks effectively, and ensure optimal resource utilization.

Software Developer

Adore Technosoft   📅 03/2024 - Present   📍 Chennai, Tamil Nadu, India

- Advanced Debugging & Troubleshooting: Became a key team member for solving complex issues by identifying and fixing critical bugs in real-time.
- Technology Stack Expertise: Gained hands-on experience with a diverse tech stack, including Angular for front-end development, Java and JSP for back-end logic, and databases like Postgres and MongoDB.
- Successfully resolved critical production issues under tight deadlines, ensuring minimal downtime and smooth application performance.
- Conducted code reviews to maintain code quality standards and mentored junior developers.

Project name	Description
Tasheer	A public-facing visa booking application for the Kingdom of Saudi Arabia.
OpSys	A visa processing application designed specifically for operational staff at visa centers across 64 countries.

EDUCATION

B.Sc.,

SASTRA Deemed to be University

📅 08/2018 - 05/2021
📍 Thanjavur, Tamil Nadu, India

KEY ACHIEVEMENTS

⭐ **Payment Gateway Integration**
Successfully implemented CCAvenue Payment Gateway for Morocco and India, enabling secure and seamless online transactions for visa bookings. This integration increased payment success rates by 20%.

💎 **Crisis Task Rescuer**
Volunteered extended hours to resolve critical tasks outside my responsibilities, preventing potential escalations and ensuring timely delivery of major Change Requests (CRs), demonstrating commitment to team success.

SKILLS

Java	Javascript	OOPS	Spring Boot

Git   JDBC   HTML   CSS   React.js

Hibernate   Microservices   Oracle SQL

Postgres SQL   Front-end   JSON

Rest API   CI/CD   Jenkins   MongoDB

Bootstrap   Responsive Web Page   Angular

TOOLS

Eclipse   GitHub   Putty   WinSCP

Visual Studio (VS Code)   DBeaver

Postman   Robo 3T   Excel   Word

Jasper Studio   Oracle SQL Developer
